Education

Indian Institute Of Management (IIM), Sirmaur – Master Of Business Administration (MBA) May 2025
Banaras Hindu University (BHU), Varanasi – Bachelor of Commerce (Finance) Jul 2023
(AIR 382 out of 4 lac applicants)

Work Experience

YourDost (Mental Wellness Tech) - Product Manager Mar 2026 - Present

- Vibe-coded and launched an in-house Learning Management System (LMS), securely integrating it with the core platform through SSO-based authentication token exchange; eliminated reliance on a third-party solution, **saving 8L annually** and reducing course creation/editing turnaround time from 15 days to 6 hours **(60× faster)**.
- Revamped MindGym by optimizing in-app game UX and building a persona-driven engagement strategy; analyzed user behavior and identified 12 personas, **ran multiple A/B tests** to hyper-personalise drip journeys for each segment, driving a **37% increase** in **activation** and a **24% improvement in Week-4 retention**.

Badho (B2B Marketplace) - Associate Product Manager, Seller App & Automation May 2025 - Feb 2026

- Spearheaded the revamp of the Badho Seller App (10,000+ DAU), enhancing navigation, feature discoverability, and content structure through the redesigned "My Home" dashboard, **driving DAU from 10,000 to 13000+**, while also established a template for new features to come in future for **maximising their discovery**.
- Conceived and launched the Supply Knowledge Center, an in-app, video-led help hub for sellers; **reducing telecaller dependency and support tickets by 28%** while also improving the experience of the users.
- Designed and launched Seller Reports Dashboard, a live analytics module used by sellers to track SKU performance, pricing deltas, and sales trends, improving data-driven decision-making for inventory forecasting and price setting at the distributor level, which **led to 4% jump in order fulfillment rates** due fewer stock-outs.
- Owned and shipped the Badho × Wheelseye integration, enabling GPS tracking for delivery vehicles within the App; adoption scaled to **2,000+ active vehicles in 3 weeks**, improving operational visibility and retention.
- Built multiple automations using N8N workflows and cron jobs involving cross-platform and cross-database syncs for "Wheelseye User Activation" **saving 20+ man-hours per week** and eradicating human errors.

Alt Mobility (EV Tech) - Product Intern, Onboarding & Payments Apr 2024 - Jun 2024

- Built an EV vs Diesel Vehicle (ICE) running cost calculator. Launched **Daily Bachat**, a daily savings notification powered by IoT odometer data, which **increased DAU by 7%** and **Avg. Session Time by 23s**. **Boosted engagement on low-interest alerts** (e.g., service reminders) through this high-frequency habit.
- Vehicle PDI App - redefined core user flow and UX (fail-pass loop logic). **Shot up process efficiency by 3X**.

Skills

- **Product Management:** Product Roadmap Development, Metrics Definition & Tracking, Data Analysis, A/B Testing, Wireframing & Prototyping, User Research & Persona Development, Agile Methodologies.
- **Technical:** Cursor, Prompt Engineering, CS Fundamentals – Databases, Client-Server Architecture, SQL.
- **Tools & Hacks:** Vibecoding for rapid MVPs, Agentic AI & Autonomous Workflows, JIRA, Figma, Miro.
